

Regulations Governing Bachelor's and Master's Degree Programs at the Vetsuisse Faculty of the Universities of Bern and Zurich (Study Regulations)

Ingress

The Vetsuisse Council,

pursuant to Article 6 (3) (e) of the Agreement on the Vetsuisse Faculty of the Universities of Bern and Zurich of May 20, 2005, and May 27, 2005,

has decided as follows:

First section: General provisions

A. Subject matter and scope

§ 1 Scope of application

¹ The Study Regulations govern the bachelor's and master's degree programs offered by the Vetsuisse Faculty at the campus faculties of the universities of Bern (University of Bern) and Zurich (UZH).

² Interfaculty degree programs at the respective universities as well as inter-university double and joint degree programs are governed by separate regulations.

³ The Dean (University of Bern) or the Vice Dean of Teaching (UZH) decides on matters not governed by these Study Regulations, the plan of studies (University of Bern) or the Academic Regulations (UZH).

§ 2 Implementing provisions

The Vetsuisse Faculty issues the necessary implementing provisions in each case (for the University of Bern: plan of studies, for UZH: Academic Regulations) within the framework of the legal provisions and ensures that there are no contradictions with regard to content.

§ 3 Modules from other faculties

¹ With regard to the option of selecting and crediting a module from another faculty at the universities of Bern and Zurich, the provisions of the respective faculty of the respective location apply.

² In all other areas, the provisions of the faculty offering the module in question apply.

§ 4 Degree programs

¹ The Vetsuisse Faculty offers the following bachelor's degree program worth 180 ECTS credits:

- Bachelor of Veterinary Medicine.

² The Vetsuisse Faculty offers the following master's degree program worth 150 ECTS credits:

- Master of Veterinary Medicine.

§ 5 Designation of degrees

¹ The Vetsuisse Faculty awards the title (University of Bern) or degree (UZH) for successful completion of a bachelor's degree program with the following designation:

- for the University of Bern: Bachelor of Veterinary Medicine, University of Bern
- for UZH: Bachelor of Veterinary Medicine UZH.

² The Vetsuisse Faculty awards the title (University of Bern) or degree (UZH) for successful completion of a master's degree with the following designation:

- for the University of Bern: Master of Veterinary Medicine, University of Bern
- for UZH: Master of Veterinary Medicine UZH.

³ The Vetsuisse Faculty may specify the academic focus by adding “in” to the title of the degree.

⁴ The titles (University of Bern) or degrees (UZH) are abbreviated as follows:

- | | |
|---|----------------|
| - Bachelor of Veterinary Medicine, University of Bern | B Vet Med |
| - Bachelor of Veterinary Medicine UZH | B Vet Med UZH |
| - Master of Veterinary Medicine, University of Bern | M Vet Med |
| - Master of Veterinary Medicine UZH | M Vet Med UZH. |

B. General information regarding studies

§ 6 Standard curricula

¹ The plan of studies or Academic Regulations sets out the requirements for passing for every degree program. A standard curriculum is published in a suitable manner.

² The standard curriculum requires full-time students to earn 30 ECTS credits per semester, i.e. 60 ECTS credits per academic year.

³ The modules and courses are published in a suitable manner.

§ 7 Admission

¹ Admission to the degree programs is governed by the law of September 5, 1996, on the University of Bern (UniG)¹ as well as the ordinance of September 12, 2012, on the University (UniV)² and the ordinance on admission to studies at the University of Zurich of

¹ BSG 436.11.

² BSG 436.111.1.

August 27, 2018, (VZS)³ as well as the ordinance on restrictions on admission to medical degree programs at the University of Zurich of April 8, 2020 (VZMS)⁴.

² Studies at both bachelor's and master's levels can only be started in the fall semester.

§ 8 Change of place of study

¹ The rules of the respective campus faculty apply to changes of study location.

² Failed equivalent academic requirements of the respective other campus faculty are counted as failed attempts.

§ 9 Studies and disability

¹ In the event of a medically certified disability or chronic illness, the Dean's Office (University of Bern) or the Office of Studies and Disability (UZH) checks whether this has an effect on study-relevant activities and, if it does, proposes measures to compensate for the disadvantages. In cases of doubt, an independent medical examiner may be consulted.

² The Dean (University of Bern) or Vice Dean of Teaching (UZH) may, on application by the student, grant measures to compensate for disadvantages on a semester-by-semester basis.

³ Retroactive measures cannot be granted.

§ 10 Language

¹ The courses are generally held in German but can also be held in English or another language.

² As a rule, evaluations are carried out and completed in the language in which the corresponding course is taught. The written evaluations are offered at the University of Bern in both German and French. Oral examinations can be taken in German or French at the University of Bern. The details are set out in the plan of studies or the Academic Regulations.

³ Specific language skills may be required for individual modules.

§ 11 Copyright of student assignments

¹ In principle, the copyrights to student assignments belong to the students.

² By submitting a thesis, students assign their copyright to the University of Bern or UZH insofar as this is necessary for administrative actions such as plagiarism detection or archiving.

³ Students are obliged to obtain the permission of their supervisor prior to publishing a thesis .

⁴ The supervisor may impose conditions on the publication.

³ LS 415.31.

⁴ LS 415.432.

§ 12 Plagiarism control

Student theses may be processed using appropriate software for the purpose of checking for plagiarism. Suitable service providers in Switzerland or abroad may be commissioned for this purpose.

§ 13 University of Bern: Study period and fees

¹ The standard duration of study for full-time students is as follows:

- a. six semesters for the bachelor's degree program,
- b. five semesters for the master's degree program.

² A request for an extension of the period of study is necessary if ten semesters in the bachelor's or eight semesters in the master's degree program are exceeded. The application must be submitted before the end of the final semester of this period.

³ The period of study may be extended for coming semesters if there is good cause in accordance with Article 35 UniV. Approval for an extension of the period of study is granted for a maximum of two semesters. After that, if necessary, a new extension request for a maximum of two semesters must be submitted.

⁴ The Dean is responsible for the processing of requests for extensions of periods of study. Rejection decisions are made in the form of an announcement open to appeal. If an extension is approved, an individual schedule may be set.

⁵ The tuition fee is governed by Article 39 UniV. A decision on the application of a hardship case pursuant to Article 39 (3) UniV is independent of the decision on the extension of the period of study.

⁶ Examination fees are based on Article 43 (3) UniV.

§ 14 UZH: Study period and fees⁵

¹ In the first twelve semesters of the bachelor's and master's degree programs, tuition fees must be paid in accordance with the Ordinance Governing Tuition and Fees at the University of Zurich dated March 5, 2012. Counting begins with the first semester after registration at UZH.

² If the student exceeds the period of study pursuant to Paragraph 1 and if there is no approved extension of the period of study, the tuition fee is doubled as per the Ordinance Governing Tuition and Fees.

³ At the end of their 11th semester after registration, the student receives, with the transcript of records, the request to immediately contact the Student Advisory Service in order to draw up an individual plan of studies.

⁴ In the event of good cause, the student may apply to the Dean of Studies for an extension of the period of study by two semesters, for which the simple tuition fee is payable. The request must be justified and submitted within 30 days of receipt of the transcript of records.

⁵ The entry into force of the standard depends on the entry into force of the Ordinance Governing Tuition and Fees at the University of Zurich.

⁵ The Vice Dean of Teaching generally decides on the application within 30 days. He or she may request further evidence or obtain reports.

⁶ If no application is submitted or if it is rejected, the tuition fee is doubled in accordance with the Ordinance Governing Tuition and Fees.

⁷ Applications for an extension of the period of study can be submitted more than once.

§ 15 Duty to provide information and exercise due diligence

¹ All study-relevant information will be provided in an appropriate manner and is binding.

² Students are obliged to find out independently about all matters of relevance to their studies, in particular the exemptions and deadlines applicable to them.

³ Students must exercise the necessary care in their veterinary activities during their studies and internships. They are bound by professional secrecy and handle confidential data and information of which they become aware with care. In particular, they must observe the following:

- a. the requirements laid down by the clinics, institutes and course instructors and the practices and standards resulting from the rules of veterinary practice;
- b. the duty of care with regard to the professional and ethical handling of animals and dealing with animal keepers;
- c. the correct handling of treatment documentation, sample material, X-ray, image and video recordings.

Second section: Modules and ECTS credits

§ 16 Modules

¹ A module is a time-limited learning unit consisting of one or more courses that may last a maximum of two semesters.

² Completion of a module may be subject to certain requirements.

³ The number of participants in a module may be limited and/or restricted to a specific target group.

§ 17 Module information

The modules and all related study-relevant information are included in the electronic course catalog (University of Bern) or the course catalog (UZH).

§ 18 Types of modules

A distinction is made between the following module types:

- a. compulsory modules: Modules which are compulsory for all students of a degree program in accordance with the plan of studies or Academic Regulations;
- b. compulsory elective modules: Modules that must be selected from a predefined area in the predefined scope in accordance with the plan of studies or Academic Regulations;
- c. elective modules: Modules which, in accordance with the plan of studies or Academic Regulations, are freely selectable from a defined area.

§ 19 Module coordinators

The campus faculties appoint module coordinators for all modules per campus who are responsible for the content and organization of the modules, including the evaluations.

§ 20 Registration for and deregistration from or booking and cancellation of modules

The plan of studies or Academic Regulations governs the modalities of registration for and deregistration from or booking and cancellation of modules. This also includes the modalities for registering and deregistering as well as booking and canceling if modules are retaken.

§ 21 ECTS credits

¹ The scope of academic requirements is determined using the European Credit Transfer and Accumulation System (ECTS). One ECTS credit corresponds to an expected average student workload of 30 hours.

² Each module is allocated a number of ECTS credits (in whole numbers) corresponding to the average workload expected for successful completion of the module.

³ In order to be awarded ECTS credits, the student must pass an explicit evaluation. ECTS credits cannot be awarded on the basis of mere attendance.

⁴ The number of ECTS credits allotted to the module is always awarded in full; they may not be awarded on a pro rata basis.

Third section: Evaluations, exclusion or final rejection and suspension

A. Evaluations

§ 22 Types of evaluations

¹ In particular, evaluations include:

- oral, written and/or practical examinations;
- written assignments;
- presentations;
- documented active participation in courses;
- documented practical work;
- evidence of academic attainments achieved through self-study;
- documented tutorial activity;
- portfolio presentations;
- verification of clinical abilities and skills in clinical courses;
- academic attainments as part of an e-learning course;
- workplace-based assessment;
- internship reports.

² Evaluations may consist of several parts. The plan of studies or Academic Regulations stipulate whether partial evaluations can be compensated.

§ 23 Organization and modalities of the evaluations

¹ The modalities for the provision of a specific evaluation are defined uniformly for all students. The plan of studies or Academic Regulations may stipulate special regulations for certain categories of students.

² Students pass the evaluations in accordance with the plan of studies or Academic Regulations; they may not move to the other campus in order to take the evaluations.

³ An assessor is present for evaluations in the form of an oral examination, subject to § 4. Minutes must be kept.

⁴ The presence of an assessor may be waived in the case of structured oral examinations or structured oral/practical examinations with several stations.

§ 24 Prevention, interruption, unexcused absence

¹ If a compelling, unforeseeable and unavoidable reason arises prior to the commencement of an evaluation, or if a request for leave of absence has been approved, the Dean of Studies of the relevant campus faculty must be notified.

² If such a reason arises immediately prior to an evaluation, this must be reported to the Dean of Studies of the relevant faculty in the respective campus. The examination supervisor or examiner must be informed if it occurs during the course of an evaluation.

³ Subsequent assertion of reasons for inability to attend an evaluation that has already taken place is generally excluded.

§ 25 Procedure in the event of prevention, interruption or unexcused absence

¹ In all cases, a written request for withdrawal, stating reasons, must be submitted to the Dean (University of Bern) or the Dean of Studies (UZH) no later than three working days after the date of the evaluation, together with the corresponding confirmations (e.g. medical certificate).

² In the case of evaluations that extend over a longer period of time (in particular written assignments), a request for an extension may be submitted before the submission deadline expires.

³ The Dean (University of Bern) or the Dean of Studies (UZH) decides whether the application should be approved. If the request is not approved, the evaluation is deemed to have been failed.

⁴ In cases of doubt, the Dean (University of Bern) or the Dean of Studies (UZH) may consult an independent medical examiner.

⁵ Candidates failing to attend an evaluation without deregistration or submitting an application late shall be deemed to have failed the evaluation.

§ 26 Performance evaluation

¹ Evaluations are either graded or graded as “pass” / “fail”.

² The grading of evaluations is based on a scale of 1 to 6, with 6 being the best and 1 the worst. As a rule, grading is carried out in half-grade increments.

³ The evaluation is considered passed if at least a grade of 4 is achieved.

⁴ The following rounding rule applies:

Grade to be rounded in the range	Rounded grade
5.75 to 6	6
5.25 to < 5.75	5.5
4.75 to < 5.25	5
4.25 to < 4.75	4.5
4 to < 4.25	4
3.25 to < 4	3.5
2.75 to < 3.25	3
2.25 to < 2.75	2.5
1.75 to < 2.25	2
1.25 to < 1.75	1.5
1 to < 1.25	1

§ 27 Retaking of modules in general

¹ Depending on the module, either the entire module or just the evaluation may be retaken. The plan of studies or Academic Regulations determines the modalities of retakes and, in particular, stipulates in which cases the entire module must be retaken.

² A module passed or definitively failed cannot be retaken, even as part of a different degree program.

³ There is no entitlement to an immediate retake.

§ 28 Retaking modules / evaluations

¹ A failed compulsory module or failed evaluation can be retaken twice.

² A failed compulsory elective module and a failed elective module or the corresponding evaluation may be retaken twice if the module is offered again. Substitutions are possible within the scope defined in the plan of studies or Academic Regulations.

³ In the case of elective modules taken at a different faculty, the provisions of the faculty offering the respective module apply (see § 3).

⁴ The master's thesis may be retaken once with a new topic.

§ 29 Unfair conduct

¹ Unfair conduct involves the carrying out of fraud or dishonesty. In particular, this includes bringing or using unauthorized aids, unauthorized communication with third parties, submitting plagiarized material or a written examination or thesis that has not been written independently.

² In the event of unfair conduct as detailed in § 1, the Dean of the respective campus faculty grades the evaluation as a 1 or declares the evaluation failed and an issued transcript of records to be invalid. Titles or degrees already awarded are revoked by the Senate (University of Bern) or by the Dean (UZH). All documents issued as a result of the unfair conduct will be confiscated.

³ The Dean of the respective campus faculty decides whether disciplinary proceedings should be requested.

⁴ The examination supervisor (University of Bern) or the examiner (UZH) may take suitable measures in advance to prevent unfair conduct.

§ 30 Inspection of examination documents

In order to ensure the confidentiality of examination questions, the disclosure of examination documents may be restricted or refused, the production of copies or transcripts may be prohibited, and the duration of inspection limited.

§ 31 Transcript of records

The attainments achieved are documented as follows:

- a. At the University of Bern: The results of each evaluation are communicated to the students via the electronic examination management system. Students are informed that an announcement open to appeal can be requested from the Dean's Office. In addition, students receive a notification once a year, which includes all grades not yet available.
- b. At UZH: At the end of a semester, the passed and failed modules are documented in a transcript of records. Academic attainments not completed at UZH are marked. The transcript of records is issued in German. An English translation will be provided.

B. Exclusion or final rejection and suspension

§ 32 Exclusion or final rejection

If a compulsory module is definitively failed or the requirements for passing the course of study can no longer be met, the Dean (University of Bern) or Vice Dean of Teaching and the Chair of the Examination Board (UZH) decide on a final exclusion or rejection from the corresponding degree program.

§ 33 Suspension

An exclusion or permanent dismissal from the degree program pursuant to § 32 causes a ban at all levels of study for the respective program.

Fourth section: Degree programs

A. Bachelor's degree program

§ 34 Degrees

The bachelor's degree program provides students with basic knowledge and the ability to think methodically and scientifically. The training objectives of the entire study program are governed by the Federal Act on University Medical Professions (Medical Professions Act, MedBG) of June 23, 2006, and, where applicable, by other related implementing provisions.

§ 35 Structure of the bachelor's degree program

¹ A bachelor's degree program comprises 180 ECTS credits. In the case of a full-time course of study, this corresponds to a standard duration of study of six semesters.

² The bachelor's degree is divided into an assessment level (60 ECTS credits, two semesters, first academic year) and a subsequent advanced level (120 ECTS credits, four semesters, second and third academic years).

³ The bachelor's degree program is structured by the academic year. In order to proceed to the next academic year, all evaluations of the previous year must have been passed. § 37 remains reserved.

§ 36 Assessment level

¹ The assessment level comprises 60 ECTS credits (first year of study).

² Students who have not yet completed the required assessment level two years after commencement of studies have failed the assessment level and are excluded or definitively rejected in accordance with § 32. This does not affect cases of hardship.

§ 37 Advanced level

¹ Modules from the third academic year may be brought forward if two thirds of the coursework in the second academic year has already been completed. The Dean's Offices provide information on which modules can be brought forward. There is no entitlement to take modules in advance. The respective campus faculty is not obliged to take into account the possibility of completing modules in advance when planning modules.

² Access to certain modules and internships may be restricted. Further details can be found in the plan of studies or Academic Regulations.

B. Master's degree program

§ 38 Degrees

The master's degree program provides students with in-depth technical knowledge and the ability to work independently in scientific and practical work. The training objectives of the entire study program are governed by the Federal Act on University Medical Professions (Medical Professions Act, MedBG) of June 23, 2006, and, where applicable, by other related implementing provisions.

§ 39 Structure of the master's degree program

¹ A master's degree program in Veterinary Medicine comprises 150 ECTS credits. In the case of a full-time course of study, this corresponds to a period of study of five semesters.

² The master's degree program is structured by the academic year or semester. To advance from the first year of study to the second, the student must have passed all evaluations scheduled for the first year of study.

§ 40 Master's thesis

¹ During the master's degree program, students must write a master's thesis worth 20 ECTS credits. The master's thesis is considered a compulsory module and is graded.

² The master's thesis must be written in German, French or English (University of Bern) or in German or English (UZH). The plan of studies or Academic Regulations may provide for exceptions.

³ The repetition of a master's thesis that has failed is governed by § 28.

⁴ The plan of studies or Academic Regulations governs the details, in particular the study arrangements, supervision and assessment of the master's thesis.

C. Accreditation and recognition

§ 41 Accreditation and recognition in general

¹ Accreditation is evidence of academic attainments completed in the transcript of records. It takes place automatically for academic attainments completed at the respective campus faculty.

² Recognition is the allocation of recognized academic achievements to the academic attainments to be completed as part of a degree program. It takes place no later than after registration for the degree with admission to the Diploma Supplement (University of Bern) or Academic Record (UZH).

³ Students are responsible for submitting the documents required for recognition.

⁴ A learning agreement must be concluded before any external academic attainments are met, unless there are crediting agreements with other universities.

⁵ The plan of studies or Academic Regulations governs further details regarding accreditation and recognition.

§ 42 Recognition of academic attainments from outside the university

¹ The Dean's Office (University of Bern) or the Director of the Study Program (UZH) decides on the recognition of academic attainments not completed at the Vetsuisse Faculty.

² Recognition is possible if:

- a. the academic work is equivalent to the academic work to be performed at the Vetsuisse Faculty;
- b. it is not the master's thesis.

§ 43 Recognition of degree

Recognized academic attainments can be credited if:

- a. they can be credited to the bachelor's or master's degree program in accordance with the plan of studies or Academic Regulations;
- b. they are equivalent to the academic requirements to be achieved in accordance with the plan of studies or Academic Regulations.

D. Degree

§ 44 Registration for the degree

¹ Students must submit their registration for a bachelor's or master's degree to the University's Dean's Office. The Dean's Office examines whether all requirements for the degree have been met.

² Registration for the degree can be made at the earliest for the semester at the end of which all the requirements for the degree pursuant to the Study Regulations and the plan of studies or Academic Regulations have been met.

§ 45 Awarding of bachelor's and master's degrees

¹ The bachelor's title or degree is awarded by the Vetsuisse Faculty when 180 ECTS credits have been earned in accordance with the Study Regulations in conjunction with the plan of studies or Academic Regulations. Of these, at least half of the required academic attainments (in ECTS credits) must have been completed at the respective faculty.

² The master's title or degree is awarded by the Vetsuisse Faculty if 150 ECTS credits have been earned in accordance with the Study Regulations in conjunction with the plan of studies or Academic Regulations. Of these, at least half of the required academic attainments (in ECTS credits) must have been completed at the respective faculty.

³ The title or degree is awarded by issuing a signed diploma certificate.

§ 46 Weighted overall grade

The degree is awarded as a weighted overall grade. The graded modules contribute to the weighted overall grade with the weighting of their ECTS credits. The weighted overall grade is calculated using unrounded starting values and is indicated to one decimal place. For this purpose, the second decimal place is rounded to the first, with numbers less than 5 being rounded down.

E. Final documents

§ 47 University of Bern: Degree documents

¹ Graduates receive the following degree documents: the diploma certificate and the Diploma Supplement with the transcript of records.

² The certificate bears the logo of the University of Bern and the signature of the Dean of the University of Bern. The certificate is issued in German or French with an English translation.

³ The Diploma Supplement is a standardized explanation of the degree. It is issued in German or French with an English translation. The Diploma Supplement also contains the transcript of records in German or French with an English translation.

§ 48 UZH: Degree documents

¹ Graduates receive the following degree documents: the diploma certificate, the Diploma Supplement and the Academic Record.

² The degree certificate bears the seal of the university and the faculty as well as the signature of the Rector of UZH and the Dean of the faculty. It shows the weighted overall grade. The degree certificate is issued in German. An English translation will be provided.

³ The Diploma Supplement is a standardized explanation of the degree. It is issued in German and English.

⁴ The Academic Record lists all academic attainments that count towards the degree, as well as recognized academic attainments not counted towards the degree, together with the respective grading; it also lists the grade and title of the master's thesis. Academic attainments not completed at UZH are marked accordingly. The Academic Record is issued in German. An English translation will be provided.

Fifth section: Legal protection

§ 49 University of Bern: Legal protection

¹ The Act of September 5, 1996, on the University (UniG) and the Act of May 23, 1989, on Administrative Law (VRPG) apply to the procedure.

² Appeals against open grade announcements made by faculty bodies can be lodged with the Dean's Office within 30 days. Complaints against appeals decisions by the Dean may be lodged with the Appeal Committee within 30 days.

³ Appeals against other announcements made by faculty bodies may be lodged with the Appeal Committee within 30 days.

⁴ In the case of appeals against examination results, complaints of unreasonableness are inadmissible.

§ 50 UZH: Legal protection

¹ Transcripts of records in accordance with § 31 are subject to an appeal to the Vice Dean of Teaching in respect of the new grades awarded in the final semester. All other announcements are also subject to an appeal to the Vice Dean of Teaching. The objection must be submitted in writing to the Office of the Dean of Studies within 30 days of receipt of the transcript of records or announcement, stating the reasons for the appeal. The decision on the objection is subject to the appeal.

² The Appeal Committee of the Zurich Universities is responsible for the appeal.

Sixth section: Transitional and final provisions

§ 51 Transitional provisions

¹ Students who commence their studies at the Vetsuisse Faculty after August 1, 2021, (fall semester 2021) shall study in accordance with these Study Regulations.

² Students who started their studies before the fall semester 2021 may continue their studies at their respective level of study with the recognition of the ECTS credits acquired up to that point in accordance with these Study Regulations, but in accordance with the old curriculum and the old passing procedures. Students at the bachelor's level then transfer to the master's level in accordance with the new curriculum. Paragraph 3 remains reserved.

³ Students pursuant to para. 2 who have to repeat an academic year after the fall semester 2021 shall continue their studies in accordance with these Study Regulations and the new curriculum, provided that the relevant academic year is already offered in the new curriculum.

⁴ Students who have not yet completed their first academic year at the beginning of the fall semester 2021 and are required to repeat the academic year shall continue their studies with the recognition of the ECTS credits acquired so far in accordance with these Study Regulations and the new curriculum. Any failed attempts from the old curriculum will be canceled for these students. The failed attempts of the individual exam (EP) 1.1 (Physics, Chemistry) are excluded from the cancellation; these remain unchanged.

⁵ Students who completed their first year of master's studies at the beginning of the fall semester 2021 and finish their studies by the end of the spring semester 2022 complete their studies in accordance with the old curriculum (120 ECTS credits). All other master students complete their studies in accordance with the new curriculum (cf § 3).

⁶ In individual cases, the Vetsuisse Faculty may determine the further course of studies and the modalities in general terms for the benefit of the students or stipulate them in individual study agreements with the students.

§ 52 Revocation of exemptions

The regulations governing studies and evaluations in bachelor's and master's degree programs at the Vetsuisse Faculty (Study Regulations) of March 10, 2010, are revoked.

§ 53 Entry into force

These Study Regulations enter into force on 1 August 2021.

Bern/Zurich, December 11, 2020

Prof. Dr. Christian Leumann
President of the Vetsuisse Council
Rector of the University of Bern

Prof. Dr. Michael Schaepman
Vice-President of the Vetsuisse Council
Rector of the University of Zurich
